

CHARLES BOLEY II, D.C.

JOHNSON RANCH CHIROPRACTIC WELLNESS & INJURY CENTER

Dr. Boley has been in private practice since 2001 with a Doctor of Chiropractic degree from LACC. His most memorable adjustment was given to his newborn son who was having difficulty breathing. Boley recalled listening to his son's shallow breaths and letting his hands tell him what to do. Upon gently adjusting the infant and hearing the click of a tiny rib, he heard his son's breaths return to regular rates and watched the monitor settle. Boley believes that healing begins with helping the body help itself. Offering chiropractic adjustments, exercises, along with our Class IV Cube K-Laser. The laser works by increasing circulation and decreasing inflammation to reduce pain levels, while helping to speed up your recovery time. Conditions including headaches, frozen shoulder, plantar fasciitis, etc. He has been featured multiple times on 'Good Day Sacramento.'
